

HP Inkjet Printing Supplies For HP Designjet Graphics and Technical Printers

Printer, ink supplies and printing material compatibility

June 2009

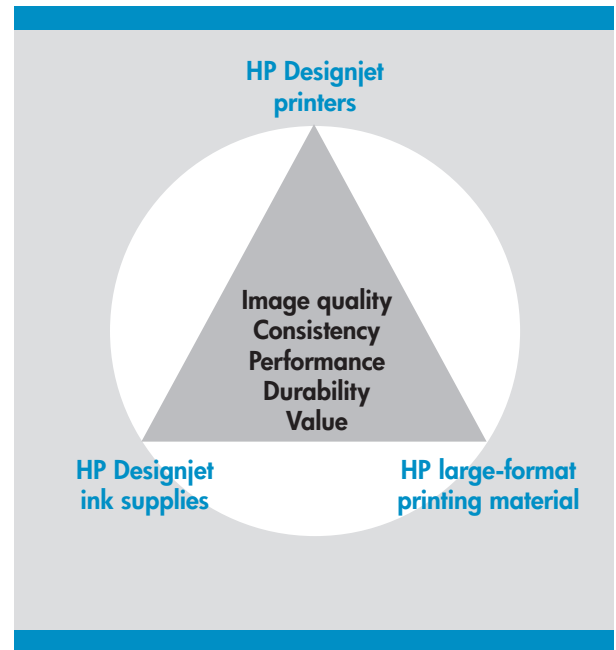

Table of contents

- HP Large-format Printing Supplies Overview 3**
- HP Designjet Ink Supplies Product Numbers 4**
- HP Large-format Printing Material Compatibility**
(product descriptions, part numbers and compatibility with HP Designjet printers and HP ColorSpan printers)
 - HP Bond and Coated Paper 6**
For economical, high-quality printing with crisp, sharp text and lines choose HP Bond and Coated Paper. It's specially engineered for high production environments and short term signage.
 - HP Technical Paper 7**
Designed for architecture (AEC), mechanical drawings (CAD) and Geographic Information Systems (GIS), HP Technical Paper produces crisp black text, fine lines and medium-density area fills.
 - HP Film (Technical and Graphic) 8**
Depend on HP Photographic Papers to produce top quality photo-realistic images with a wide variety of durability and sheen.
 - HP Photographic Paper. 8**
Use HP Proofing Papers to ensure color accuracy for professional looking comps prior to large-run printing.
 - HP Proofing Paper 10**
HP Backlit Materials are offered in both dye and UV ink-compatible products for illuminated backlit displays in indoor and outdoor locations.
 - HP Backlit Material 10**
For economical, high-quality printing with crisp, sharp text and lines choose HP Bond and Coated Paper. It's specially engineered for high production environments and short term signage.
 - HP Self-adhesive Material 11**
HP Self-adhesive Materials offer a wide variety of products including coated paper, vinyl, polypropylene and polyester film, as well as laminates for post-processing.
 - HP Banner and Sign Material 12**
HP offers durable, weather resistant banner and sign material for a variety of applications. Many are compatible with dye and fade-resistant UV and pigment inks and offer qualities such as tear and fade resistance.
 - HP Fabric and Textile Material. 13**
HP offers a wide range of fabric and textile materials appropriate for indoor and outdoor uses in retail, trade show or banner applications.
 - HP Fine Art Printing Material. 13**
HP art papers and canvas materials are designed for art reproduction professionals and offer a wide range of color, texture, thickness, sheen and durability.
- HP Large-format Printing Material Applications 15**

HP Designjet printing system— the complete solution

HP Designjet printers, Original HP dye or fade-resistant pigment and UV ink supplies, and Original HP printing materials are designed to work together as a system to ensure uncompromising image quality, consistency, performance, durability and value—every time.

Original HP Supplies—Brilliantly Simple

Why HP printing material?

Original HP large-format printing material is more than just paper. It's a technological innovation, using advanced HP-engineered coatings to take the guesswork out of consistently brilliant printing. The complete HP Designjet printing system—large-format printers, original dye or fade-resistant pigment/UV ink supplies and printing material—is custom designed to deliver exceptional quality and consistent results.

HP large-format printing material

HP Premium printing material

Designed to ensure the best possible output with HP Designjet printers and ink supplies, HP Premium printing material includes a variety of outdoor and indoor materials at a competitive price. HP Premium products provide uncompromising image quality, consistency, performance and durability.

HP Universal and Everyday printing material

HP Universal and HP Everyday printing materials deliver quality results for the cost-conscious customer. They are HP-tested to meet the everyday needs of graphics, photo, print service providers (PSPs) and technical professionals. HP Universal and HP Everyday media products are compatible with most HP Designjet printers and select non-HP large-format printers.

HP Designjet ink supplies

Original HP Designjet ink supplies are developed to work with HP Designjet printers and HP large-format printing material to provide optimal printing results. The latest HP Designjet ink supplies feature HP Smart Printing Technology and modular ink delivery systems—high-capacity ink cartridges and long-life printheads—to produce uncompromising image quality with superb printing economy.

Specially formulated HP Designjet dye-based and fade-resistant pigment/UV ink supplies bond perfectly with HP large-format printing material to produce uniform fills; sharply defined lines; and crisp, clear text across a wide range of outdoor and indoor durable printing applications.

Get great results every time when you use HP Designjet printers, original dye or pigment/UV ink supplies, and large-format printing material.

For HP large-format supplies warranty and HP Product Support Center information, please visit www.hp.com/go/designjet/supplies/support.

- HP large-format printing material is guaranteed to meet HP published specifications and to be free of manufacturing flaws and defects, and it is designed to resist paper jams when used correctly.
- Each original HP printhead and ink cartridge is warranted to be free from defects in materials and workmanship during the period of the warranty. This warranty pertains to any HP printhead or ink cartridge when used in its designated HP or authorized OEM printing device.

Explore the [HP Large-format Supplies Center website](http://www.hp.com/go/designjet/supplies)—one-stop-shopping for all your supplies information needs. This site features ink and media product information, printing application “how-to” workshops, Designjet printer/supplies compatibility, print samples, print permanence and lamination information, ICC/media profiles and more. Stay informed about the latest products and applications by visiting www.hp.com/go/designjet/supplies.

HP Film (Technical and Graphic)	Vivera Ink	Vivera Pigment Ink	Dye Ink	UV Ink	Dye Ink	Dye Ink	UV Ink												Dye Ink		
HP Clear Film For multiple overlays and transparent images, this optically clear film provides excellent ink adhesion, superior bleed control, and bright, vivid colors. 5.2 mil • 174 g/m ² • 75 ft. (22.9m)																					
HP Matte Film For master and high-volume reproducible drawings, this smooth, polyester-based film produces sharp black and color lines and uniform solid areas. The surface is smear-resistant and accepts pencil for notations. 5 mil • 160 g/m ² • 125 ft. (38.1m)																					
HP White Matte Polyester Film Well-suited for indoor and outdoor applications, this matte film has extremely high tensile strength and dimensional stability and is compatible with a variety of HP Designjet Vivera pigment or UV ink printers and dye ink printers. 6.5 mil • 167 g/m ² • 50 ft. (15.2m) ●																					
HP Vivid White Glossy Polyester Film This universal-use film has a unique fast-drying formulation that makes it suitable for a wide range of full-color applications. Compatible with a variety of HP Designjet Vivera pigment or UV ink printers and dye ink printers, it's ideal for outdoor and indoor display graphics as well as geographic information systems (GIS), architecture (AEC) and engineering (CAD) applications. 6.73 mil • 230 g/m ² • 66 ft. (20m) ●																					
HP Photographic Paper																					
HP Professional Satin Photo Paper Preferred by top professional photographers, HP Professional Satin Photo Paper captures vivid, true-to-life colors, realistic skin tones, rich blacks, and sharp details. Designed to showcase images at their finest, this durable, exhibition-quality inkjet photo paper provides substantial weight, outstanding reflectivity and consistent gloss uniformity. Compatible with HP Designjet Z3200/Z3100/Z2100 Photo printer series and HP Designjet Z6100 printer series—all with HP Vivera pigment inks. 11.3 mil • 300 g/m ² • 50 ft. (15.2m)																					
HP Premium Instant-dry Satin Photo Paper This premium satin photo paper reduces glare from indoor lights and is compatible with a variety of HP Designjet Vivera pigment or UV ink printers and dye ink printers. It produces output with unrivaled image quality and versatility, and its microporous coating allows prints to dry instantly for immediate lamination. 10.3 mil • 260 g/m ² • 18 in. x 50 ft. (15.2m); 24 in. x 75 ft. (22.9m); 36–60 in. x 100 ft. (30.5m) rolls																					
HP Everyday Pigment Ink Satin Photo Paper This 235 g/m ² satin photo paper, optimized for pigment inks and designed with “layflat technology,” is compatible with HP Designjet Z3200/Z3100/Z2100 Photo series printers, as well as other HP Designjet printers and non-HP pigment printers. Its microporous surface allows for maximum ink absorption—resulting in vibrant colors, fast dry time and superior fade resistance, all provided at a very competitive price. 9.1 mil • 235 g/m ² • 100 ft. (30.5m)

HP Self-adhesive Material	Vivera Ink	Vivera Pigment Ink	Dye Ink	UV Ink	Dye Ink	Dye Ink	UV Ink																																
HP Colorfast Adhesive Vinyl This presentation-quality vinyl has pressure-sensitive adhesive that sticks where you want it, when you need it, without cracking or peeling. This 6.2-mil printing material is lightfast and waterfast for three months outdoors without lamination and is compatible with a variety of HP Designjet Vivera pigment or UV ink printers and dye ink printers. 6.2 mil • 328 g/m ² • 40 ft. (12.2m)																																							
HP Universal Adhesive Vinyl An economical, everyday, 11-mil adhesive vinyl ideal for both indoor and outdoor applications, this media delivers high-impact prints with great image quality and exceptional durability. Compatible with a variety of HP Designjet Vivera pigment or UV ink printers and dye ink printers, this media is easy to use and apply, dries fast for quick post-print processing, and produces reliable prints, time after time. 11 mil • 290 g/m ² • 66 ft. (20m) ●																																							
HP Self-adhesive Gloss Polypropylene This quality gloss adhesive polypropylene media is ideal for printing glossy images at lower costs since it eliminates the need for mounting adhesive. This tear-resistant, easy-to-handle, 5.5-mil film—with a permanent self-adhesive for reliable mounting—also produces brilliant, photo-realistic images. 5.5 mil • 120 g/m ² • 75 ft. (22.9m)																																							
New! HP Everyday Adhesive Matte Polypropylene Versatile and durable, this 8.9-mil, matte polypropylene film produces quality prints with excellent color vibrancy at an economical, everyday price. It's easy to print, handle and laminate and produces long-lasting, eye-catching, outdoor or indoor signs and displays. It's also compatible with a variety of HP Designjet Vivera pigment or UV ink printers and dye ink printers. 8.9 mil (w/liner) • 180 g/m ² (w/liner) • 75 ft. (22.9m)																																							
HP Matte Adhesive-back Polypropylene This 8.9-mil, white, matte, adhesive polypropylene printing material has a water-resistant coating and a reverse side prepared with an acrylate glue and a siliconized film. It's ideal for outdoor and indoor display graphics applications. 8.9 mil • 225 g/m ² • 70 ft. (21m) ●																																							
HP Self-adhesive Indoor Paper This 7.1-mil paper has a permanent self-adhesive backing that makes it especially suited for mounting projects, as well as a coating that's ideal for full-color inkjet applications. 7.1 mil • 170 g/m ² • 75 ft. (22.9m) ●																																							
HP Two-view Cling Film This 9.1-mil, reverse-print, translucent, adhesive polyester film is ideal for sophisticated graphics. Matte on one side, it has a low-tack adhesive glue on the reverse side that allows the film to be easily mounted and repositioned on any smooth surface. 9.1 mil • 240 g/m ² • 75 ft. (22.9m) ●

HP Durable Display Film This opaque, white, inkjet-compatible coated PET film with a matte finish is ideal for pop-up displays and roll-up presentation systems for fairs, exhibitions, store promotions and other indoor events. This 6.5-mil media comes with a built-in non-transmissive backside, so back lamination is not needed. It's extremely resistant to the mechanical stress associated with rolling and unrolling, and it produces longer-lasting display graphics. 6.5 mil • 205 g/m ² • 50 ft. (15.2m) ●		•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	
New! HP Durable Banner with DuPont™ Tyvek® This brilliant, durable, 13-mil banner material produces professional-looking banners that resist tears, fading and water damage. And because this substrate is so light weight, it's easy to hang, grommet and stitch. Ideal for indoor or outdoor applications, this media lasts up to three months outdoors without lamination. It's also compatible with a variety of HP Designjet Vivera pigment ink or UV ink printers and dye ink printers. 13 mil • 140 g/m ² • 75 ft. (22.9m)		•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	
HP Instant-dry Gloss Indoor Banner This glossy indoor banner paper is extremely durable and produces excellent image quality, making it ideal for high-volume display graphics environments. It can be used outdoors for short time periods or longer term with lamination. Made of microporous polypropylene for an instant-dry finish, this media can be laminated immediately after printing. It's 10-mil, tear- and water-resistant and is compatible with a variety of HP Designjet Vivera pigment ink or UV ink printers and dye ink printers. 10 mil • 195 g/m ² • 50 ft. (15.2m)		•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	
New! HP PVC-free Banner If you're looking for printing solutions that are better for the environment, choose HP PVC-free Banner. This 21-mil, 410-g/m ² , PVC-free, 100% polypropylene banner material offers the look, feel, and overall performance of scrim vinyl, but it's easier to dispose of and recycle. Three layers of polypropylene provide strength, opacity and tear-resistance, as well as high imaging performance. This media is ideal for outdoor or indoor applications, and it's compatible with a variety of HP Designjet Vivera pigment ink or UV ink printers and dye ink printers. 21 mil • 410 g/m ² • 50 ft. (15.2m) ●		•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	
HP Opaque Scrim This 13.4-mil, matte opaque PVC banner paper is composed of tear-resistant polyester fabric embedded between two white vinyl layers. A special ink-receptive coating makes the media water-resistant and offers good color brilliance and edge definition for a variety of outdoor and indoor display graphics applications. HP Opaque Scrim is compatible with a variety of HP Designjet Vivera pigment ink or UV ink printers and dye ink printers. 13.4 mil • 460 g/m ² • 50 ft. (15.2m)		•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	
HP Outdoor Paper Ideally suited for short-term outdoor applications, this premium, 7.5-mil, water-resistant paper has an exceptional inkjet coating that permits very high mechanical and tear strength when wet. The matte surface allows for high ink absorption and is water-resistant. This media is compatible with a variety of HP Designjet Vivera pigment ink or UV ink printers and dye ink printers. 7.5 mil • 145 g/m ² • 100 ft. (30.5m) ●		•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•

HP Blue Back Outdoor Billboard Paper This white, blue-back, water-resistant billboard paper offers high opacity for outdoor applications. It's 6.5-mil and particularly suitable for graphic arts prints of the highest resolution and perfect color balance. 6.5 mil • 140 g/m ² • 100 ft. (30.5m) ●		●	●	●		●	●	●														●																
HP Matte Polypropylene This 7.5-mil, matte polypropylene film has a water-resistant coating and is ideal for indoor and outdoor display graphics applications. It's compatible with a variety of HP DesignJet Vivera pigment ink or UV ink printers and dye ink printers. 7.5 mil • 130 g/m ² • 75 ft. (22.9m) ●		●	●	●		●	●	●																														
HP Fabric and Textile Material																																						
HP Durable Flag Fabric This 100-percent polyester knit fabric is tear- and weatherproof, and is optimized to resist strong winds and heavy rains, making it an ideal choice for flags. In addition, HP Durable Flag Fabric is affixed on a paper release liner for stable and efficient printing, and it's compatible with HP DesignJet Vivera pigment ink or UV ink printers. 13.8 mil • 110 g/m ² • 33 ft. (10m) ●		●	●	●		●	●	●																														
HP Matte Fabric Cotton This 100-percent cotton, paper-backed matte media is compatible with HP DesignJet 5500/5000 series printers and HP DesignJet dye or fade-resistant UV ink supplies. It's ideal for trade show graphics and other indoor display graphics applications. 15 mil • 215 g/m ² • 33 ft. (10m) ●					●																																	
HP Fine Art Printing Material																																						
HP Collector Satin Canvas This heavyweight, natural-white, cotton canvas has a satin finish and is ideal for printing museum-quality display prints, sharp black-and-white photographs and collector editions. 22 mil • 400 g/m ² • 24 in. x 20 ft. (6.1m); 36–60 in. x 50 ft. (15.2m)		●	●	●	●	●																																
HP Professional Matte Canvas Designed for printing museum-quality display prints, sharp black-and-white photographs and collector editions, this heavyweight canvas has a smooth, bright-white, matte finish. 22 mil • 430 g/m ² • 24 in. x 20 ft. (6.1m); 36–60 in. x 50 ft. (15.2m)		●	●	●	●	●																																
HP Artist Matte Canvas This mid-grade artist canvas features a bright-white coating and matte finish and is ideal for printing high-quality, fine art reproductions and photographs at an affordable price. 18 mil • 380 g/m ² • 24 in. x 20 ft. (6.1m); 36–60 in. x 50 ft. (15.2m)		●	●	●	●	●																																
HP Universal Matte Canvas This media is an economical artist stretch canvas that delivers superb quality for price-sensitive applications, making it ideal for printing low-price-point consumer art reproductions. 18 mil • 350 g/m ² • 24 in. x 20 ft. (6.1m); 36–42 in. x 50 ft. (15.2m)		●	●	●	●	●																																
HP Matte Litho-realistic Paper An economical, wood-free art paper, this printing material has the look, feel and longevity of a heavy offset paper. 13 mil • 270 g/m ² • 100 ft. (30.5m)		●	●	●	●

HP Baryte Satin Art Paper HP Baryte Satin Art Paper replicates the “look and feel” of classic argentic baryte papers. Optimized for portrait photography, it delivers outstanding renderings of half-tone grays, saturated black and neutral tones. It’s ideal for photo art reproduction and photo enlargements and is compatible with HP Designjet Z3200/Z3100/Z2100 Photo series printers. 14 mil • 290 g/m ² • 50 ft. (15.2m) ●		•	•																			
HP Hahnemühle Smooth Fine Art Paper Create museum-quality, archival fine art prints and photographs with this 100-percent cotton rag paper. This smooth, matte, bright-white paper delivers masterful color matching, long-lasting vivid colors and rich blacks for exceptional contrast. 16.5 mil • 265 g/m ² • 35 ft. (10.7m) ● 19.5 mil • 310 g/m ² • 35 ft. (10.7m) ●		•	•	•	•																	
HP Hahnemühle Textured Fine Art Paper Create exquisite, museum-quality, archival fine art prints with this 100-percent cotton rag paper. This textured, matte, natural-white paper delivers masterful color matching, long-lasting vivid colors and rich blacks for exceptional contrast. 21.5 mil • 265 g/m ² • 35 ft. (10.7m) ● 26 mil • 310 g/m ² • 35 ft. (10.7m) ●		•	•	•	•																	
HP Hahnemühle Watercolor Paper Ideal for digital fine art reproduction, this high-quality, acid-free paper with 50-percent rag is coated on one side. It has a natural white finish with a slightly structured, soft-textured surface matte. 13.4 mil • 210 g/m ² • 38 ft. (11.5m) ●		•	•	•	•																	
HP Aquarella Art Paper Create gallery-quality, archival art reproductions and professional business collateral with this affordable art paper. This textured, matte, warm-white paper has a slightly structured surface that is similar to watercolor paper. 14.4 mil • 240 g/m ² • 35 ft. (10.7m) ●		•	•	•	•																	
HP Canvas Paper This canvas-embossed paper is specially coated to produce excellent sharpness. It’s a matte specialty paper with a linen structure that’s ideal for fine art reproductions. 10.2 mil • 180 g/m ² • 35 ft. (10.7m) ●		•	•	•	•																	

How to Buy HP Large-format Printing Material

◆ UV/Pigment Inks

○ Line drawing

+ Not compatible when used with the HP Designjet 1000 series optional Multi-roll Feeder

* Compatible with roll media products only on HP Designjet Z6100

▲ Compatibility listed is for each HP LF printing material product type. Printing material size supported depends on media handling capabilities of each specific HP Designjet printer.

¹ HP Designjet 200, 220, 230, 330, 430, 600 and 700 printers are monochrome only.

² Information provided by Wilhelm Imaging Research, Inc., an independent research lab. Wilhelm results are based on years of display under glass, in typical indoor conditions of 450 lux for 12 hours a day, before noticeable fading occurs. See www.wilhelm-research.com for more information.

³ HP Designjet 110 Plus compatible with cut sheet media and up to 24" roll (roll feed accessory required).

⁴ HP Clear Film is compatible with HP Designjet 5500/5500PS dye only.

⁵ Wilhelm Imaging Research, Inc., concluded that prints made with HP 85 Vivera dye ink cartridges and HP Premium Plus Gloss Photo Paper or HP Premium Plus Satin Photo Paper may be displayed indoors under glass for 82 years before noticeable fading and staining will occur. See www.wilhelm-research.com for details.
