

EVERYTHING YOU EVER WANTED IN A LOW-VOLUME COPIER.

- **Class beating features and functions**
- **User-friendly intuitive control panel**
- **Compact sleek design**

You won't believe your eyes.

Yes, it is an engineering copier. And beyond the sleek new design, we've added features and functions that you've never seen at this price. The Xerox 3001 Engineering Copier is an easy-to-use, convenient, and affordable solution for your low-volume copying needs.

It's built to the same exacting standards as the rest of the Xerox 3000 family of copiers, and scaled for low-volume users.

Raise your expectations for an engineering copier.

You'll find the 3001 easy to use, with its intuitive control panel and convenient operating height. It will boost your productivity, since you can make as many as 10 copies without re-feeding your drawing. A document handler carefully retains your originals — even your delicate bluelines and sepias.

Keep track of jobs.

The 3001 offers the Xerox Auditron system to keep track of your copies. This job tracking feature is designed for the engineering office environment. It's adaptable to your accounting system and records specific information for each job and project. It helps you control costs, and gives you an accurate record for charging back copies.

Perfect for any environment.

The 3001 is so compact and quiet, it can be used anywhere. It's attractive enough to be used in the president's office and robust enough for the manufacturing floor — and any environment in between. Just plug it in, and start using it.

DOCUMENT INPUT

Maximum size	36" x 20' long in single copy mode
Minimum size	8 1/2" x 11" (portrait)
Types	Opaque, translucent, and transparent documents
Thickness	Up to 1/8" thick

PRODUCTIVITY

Warm-up time	Initial warm-up: 90 seconds (cold start-up)
From power-saver standby	25 seconds
First Copy Out Time (FCOT)	Less than 25 seconds for D size (24" x 36")
Rated speed	10 linear feet per minute
Copy throughput	3 D size (24" x 36") per minute

MEDIA

Type	20 lb. bond, Improved 20 lb. Zero Solvent vellum, and 4 mil Zero Solvent film
------	---

POWER REQUIREMENTS

120 VAC/15 amp dedicated line

PHYSICAL CHARACTERISTICS

Product size	Weight 180 lbs.; Width 55"; Depth 19"; Height 42"

The 3001 has features and functions you've never seen at this price

The choices are yours. From Xerox Engineering Systems.

Only Xerox Engineering Systems gives you the power of the Xerox 3000 family of wide-format copiers. The 3000 copiers offer the right combination of features, value, and productivity for engineering reprographics. Our products continue to be the industry standard for reliability, efficiency, and quality performance.

KEY FEATURES

- Copy quality controlled with light and dark input keys.
- Copy contrast settings allow highest possible copy quality from originals.
- Partial copy feature allows you to copy just the area you need.
- Recall feature automatically restores settings from the previous job.
- Low-toner indicator monitors the toner level to ensure consistent copy quality.

The Xerox Auditron System keeps track of your copies

ACCESSORIES

Electronic Auditron; copy catch tray; foreign accessory kit.

XES offers a broad array of media, toner and consumables designed to work with all brands of wide format equipment.
